

Electronic Warfare Systems Support

PRODUCTS:

- Electronic Attack Simulators:
Simulates the capabilities of threat jammers
- Radar Signal Simulators:
Simulates the capabilities of threat radars
- Tactical Electronic Attack Systems:
Provides self protection, escort and stand off jamming
- Communication Intercept Systems:
Provides systems to receive, locate and process signals

DOMAIN INDEPENDENT:

- Aircraft
- UAV
- Pod
- Land-Based
- Shipboard
- Laboratory

Argon ST Network Systems
2810 Bunsen Avenue
Ventura, CA 93003
